

Publication Correction

The bond budget reflects the allocation of proceeds from the first series of bond sales. This budget is reviewed periodically by the District and presented to the bond oversight committee at their regularly scheduled meetings.

Measure JJ - Series 1 Bond Budget

Main Campus Upgrades and New Construction
Goal 4 - Enhance the existing college facility.

This will include work on a new Student Services One-Stop Center, improvements to the parking lots, roofs and facility. A new solar energy field is currently under construction which will save the college millions of dollars in electricity costs. The savings alone will repay the initial bond outlay within 5 years.

- Solar Generating Facility
- Student Services One-Stop Center

A 2010 publication to the community reported bond project updates and budget summary. The pie chart located on the inside of the brochure erroneously indicated that the Series 1 Bond Budget included \$15,000,000 dedicated to a Student Services Center (One Stop). At the time of printing, no bond funds had been designated for this project.

The College regrets this error.
