The Board is committed to a safe and secure work and learning environment. The first concern of the College in establishing disaster preparedness plans and operating under emergency procedures shall be the welfare of the College students and personnel under its jurisdiction.

During an emergency situation all employees are declared civil defense workers subject to activities assigned to them in accordance with Government Code Sections 3100-3101 of the State of California.

An operational plan to implement these policies shall be prepared at the discretion of the Superintendent/President. This plan shall be reviewed annually and revised as necessary.
