

The cast sounds wonderful. Dr. Tom Miller has done an outstanding job with them. Last night we rehearsed in the Rehearsal Space in our NEW PAC Addition and they all sounded very good. On certain numbers while they were singing - they were also dancing. David Rodriguez has created some amazing choreography that helps to create the world of Guys and Dolls.

Lee Harris, Nancy Christian, and Eric Pearson are busy putting the technical world in order for the show. It has been very advantageous to have a shop the size of our new shop for the sets to be built in. They are doing some great work.

We are also lucky to be introducing the costume work of Ashley Garcia. She has done a wonderful job, not only in class or getting the costume shop in order but in putting together the costumes for Guys and Dolls.

Johnathon Renfro - a student - is overseeing makeup and wigs for the production. Johnathon received an award at the recent Kennedy Center American College Regional Theatre Festival. He came in 2nd with his makeup and wig designs for Alice In Wonderland.

Let me share with you the students and the role or roles which they are playing.

#### CAST LIST FOLLOWS:
