RESOLUTION NO. 14-03

RESOLUTION OF THE BOARD OF TRUSTEES OF THE VICTOR VALLEY COMMUNITY COLLEGE DISTRICT IN SUPPORT OF THE CALIFORNIA COMMUNITY COLLEGES BACCALAUREATE

WHEREAS, by 2018, 63 percent of job openings will require some college education and 33 percent will require a bachelor’s degree; and

WHEREAS, among the 20 most populous states, California ranks 19th in the percentage of high school graduates who enroll directly in a four-year college or university and 18th in the percentage who enroll in any college, including community colleges; and

WHEREAS, since 2000, California has lost slightly more college graduates to other states than it has gained; and

WHEREAS, the 110,000 bachelor’s degrees awarded annually by California public institutions and the 40,000 awarded by private institutions fall almost 60,000 degrees short of the number needed to meet projected demand in 2025; and

WHEREAS, careers in public safety, technology, and health services now often require no less than the baccalaureate; and

WHEREAS, 21 states have authorized community colleges to award applied baccalaureates that meet workforce demand; and

WHEREAS, every person should have an opportunity to pursue the baccalaureate at a place that is convenient, accessible, and affordable; and

WHEREAS, community colleges have a proven record of meeting local workforce demands in applied and technical areas, supporting underrepresented students and providing affordable, accessible, quality instruction; and

WHEREAS, authorizing community colleges to offer limited, targeted, applied baccalaureates would increase access for underserved areas and populations, benefit the state economy, remove barriers to completion, and compensate for the lack of university programs or capacity in certain fields; and

WHEREAS, the California Community Colleges Baccalaureate Study Group convened in 2013 by Chancellor Brice Harris concluded that “the offering of baccalaureates by the California Community Colleges merits serious review and discussion”;

NOW THEREFORE BE IT RESOLVED that the Victor Valley Community College District Board of Trustees supports legislation that authorizes and funds community colleges to voluntarily offer baccalaureates that address critical workforce needs, meet the needs of underrepresented students, and avoid unnecessary duplication of degree programs in a region.

NOW THEREFORE BE IT FURTHER RESOLVED that the Victor Valley Community College District Board of Trustees urges Chancellor Brice Harris and the Board of Governors of the California Community Colleges to proceed with an ongoing dialogue with the California State University and the University of California on this opportunity while also establishing in a collaborative fashion the criteria and processes for individual colleges to offer baccalaureates.

ADOPTED, SIGNED AND APPROVED this 10th day of June, 2014 at the regular meeting of the Victor Valley Community College District Board of Trustees.

Victor Valley Community College District

I, John Pinkerton, Clerk of the Governing Board of the Victor Valley Community College District, do hereby certify that the foregoing Resolution was adopted by the Governing Board of said District at the meeting of said Board held on the 10th day of June, 2014, and that it was so adopted by the following vote:

**Policy Reference:** BP 6620 Naming of Buildings

Naming of district policy may be considered for any of the following reasons:

4. to recognize a person, group, or business that has donated significant resources through the Victor Valley College Foundation. The suggested value of the donated resources commensurate with naming recognition for campus facilities are attached to the policy as an addendum that may be updated from time to time by the Board of Trustees. Donations do not in themselves guarantee naming rights, but suggest that such recognition shall be appropriately considered.

**Duration:** Irrevocable – in perpetuity.

**Property:** New (soon to be constructed) Science and Health Building

**Rationale:**

Dr. Prem Reddy has established a tradition of generous support for Victor Valley College and its Health Science Programs. In 2004, he provided what was then the largest gift in the history of the college when he committed $1 million and the college named the Dr. Prem Reddy School of Health Sciences in his honor. Since that time, Dr. Reddy has contributed more than $3.5 million through gifts, student scholarships and partnership contracts most recently funding $120,000 in needs within the college STEM programs.

**Dr. Reddy has agreed to contribute an additional $2 million paid over the next two years to support the development of the new Science/Health Building.** This will be the largest single charitable gift in the history of the college.

This gift agreement includes recognition in the form of naming rights to the new building. Dr. Reddy has selected the following name for the building:

**Dr. Prem Reddy Health Sciences Building**

In accordance with AP6620 a campus committee was convened by the Superintendent/President for collegial review.
Agenda Item: III.b.

**Naming Request:** Robert L. Feddersen CIS Teaching Lab

**Recommended by:** Paul Tonning,
[paul.tonning@vvc.edu](mailto:paul.tonning@vvc.edu), 760.245.4271, ext. 2409

**Policy Reference:** BP 6620 Naming of Buildings

Naming of district policy may be considered for any of the following reasons:

4. to honor a deceased person who has made a unique, extraordinary or significant personal contribution to the College.

**Duration:** 10 years (one for each year of service to the college)

**Property:** AC-5

**Rationale:**

Robert Feddersen’s dedication to students, student learning and student success is still talked about 5 years after his passing. His contributions to the success and reputation of the CIS department and the Victor Valley College District are without doubt why the CIS program is reputed for its quality. His presence is sorely missed. The subject matter that is taught in AC5 from computer literacy to UNIX system administration and programming were favorites of Robert and his students. The CIS department believes it will be a good thing to recognize the great efforts of this beloved faculty member by naming this classroom in his honor.

In accordance with AP6620 a campus committee was convened by the Superintendent / President for collegial review.

**COMMERCIAL GENERAL LIABILITY COVERAGE PART**

**SCHEDULE**

(If no entry appears above, information required to complete this endorsement will be shown in the Declarations as applicable to this endorsement.)

**A.** For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under COVERAGE A (SECTION I) and for all medical expenses caused by accidents under COVERAGE C (SECTION I), which can be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. A separate Designated Construction Project General Aggregate Limit applies to each designated construction project, and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations.

2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under COVERAGE A, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under COVERAGE C regardless of the number of:
   a. Insureds;
   b. Claims made or "suits" brought; or
   c. Persons or organizations making claims or bringing "suits".

3. Any payments made under COVERAGE A for damages or under COVERAGE C for medical expenses shall reduce the Designated Construction Project General Aggregate Limit for that designated construction project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Construction Project General Aggregate Limit for any other designated construction project shown in the Schedule above.

4. The limits shown in the Declarations for Each Occurrence, Fire Damage and Medical Expense continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Construction Project General Aggregate Limit.

**B.** For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under COVERAGE A (SECTION I), and for all medical expenses caused by accidents under COVERAGE C (SECTION I), which cannot be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. Any payments made under COVERAGE A for damages or under COVERAGE C for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-Completed Operations Aggregate Limit, whichever is applicable; and

2. Such payments shall not reduce any Designated Construction Project General Aggregate Limit.

**C.** When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-Completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Construction Project General Aggregate Limit.
D. If the applicable designated construction project has been abandoned, delayed, or abandoned and then restarted, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, the project will still be deemed to be the same construction project.

E. The provisions of Limits Of Insurance (SECTION III) not otherwise modified by this endorsement shall continue to apply as stipulated.

   The medical expense limit provided by this policy shall be the greater of:

The following is added:

COVERAGE D. PRODUCT RECALL NOTIFICATION EXPENSES

Insuring Agreement

   We will pay “product recall notification expenses” incurred by you for the withdrawal of your products, provided that:

   a. Such withdrawal is required because of a determination by you during the policy period, that the use or consumption of your products could result in “bodily injury” or “property damage”; and
   b. The “product recall notification expenses” are incurred and reported to us during the policy period.

   The most we will pay for “product recall notification expenses” during the policy period is $100,000.

SUPPLEMENTARY PAYMENTS – COVERAGE A AND B

Item b. and d. are replaced with:

   b. The cost of bail bonds required because of accidents or traffic law violations arising out of the use of any vehicle to which the Bodily Injury Liability Coverage applies. We do not have to furnish these bonds.
   d. All reasonable expenses incurred by the insured at our request to assist us in the investigation or defense of the claim or “suit” including actual loss of earnings up to $500 a day because of time off from work.
SECTION II – WHO IS AN INSURED

Item 4 is replaced with:

4. Any subsidiaries, companies, corporations, firms, or organizations you acquire or form during the policy period over which you maintain a controlling interest of greater than 50% of the stock or assets, will qualify as a Named Insured if:
   a) you have the responsibility of placing insurance for such entity; and
   b) coverage for the entity is not otherwise more specifically provided; and
   c) the entity is incorporated or organized under the laws of the United States of America.

However, coverage under this provision does not apply to “bodily injury” or “property damage” that occurred before you acquired or formed the entity, or “personal injury” or “advertising injury” arising out of an offense committed before you acquired or formed the entity.

Coverage under this provision is afforded only until the end of the policy period, or the twelve (12) month anniversary of the policy inception date whichever is earlier.

SECTION III – LIMITS OF INSURANCE

Paragraph 2 is amended to include:

The General Aggregate Limit of Insurance applies separately to each “location” owned by you, rented to you, or occupied by you with the permission of the owner.

Paragraph 6 is replaced with the following:

6. Subject to 5. above, the Fire Damage Limit is the most we will pay under Coverage A for damages because of “property damage” to premises while rented to you, temporarily occupied by you with permission of the owner, or managed by you under a written agreement with the owner, arising out of any one fire, explosion or sprinkler leakage incident.

The Fire Damage Limit provided by this policy shall be the greater of:
   a. $500,000 or
   b. The amount shown in the Declarations.

SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS

Item 2. a. is replaced with:

2. Duties In The Event of Occurrence, Offense, Claim or Suit
   a. You must promptly notify us. Your duty to promptly notify us is effective when any of your executive officers, partners, members, or legal representatives is aware of the “occurrence”, offense, claim, or “suit”. Knowledge of an “occurrence”, offense, claim or “suit” by other employee(s) does not imply you also have such knowledge. To the extent possible, notice to us should include:
      1) How, when and where the “occurrence” or offense took place;
      2) The names and addresses of any injured persons and witnesses; and
      3) The nature and location of any injury or damage arising out of the “occurrence”, offense, claim or “suit”.

Item 4. b. 1) b) is replaced with:

b. Excess Insurance

Item 6. is amended to include:

6. Representations
   d. If you unintentionally fail to disclose any hazards existing at the inception date of your policy, we will not deny coverage under this Coverage Part because of such failure. However, this provision does not affect our right to collect additional premium or exercise our right of cancellation or non-renewal.

Includes copyrighted material of Insurance Services Offices Inc., with its permission.
8. **Transfer of Rights Of Recovery Against Others To Us**
   a. If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring suit or transfer those rights to us and help us enforce them.
   b. If required by a written "insured contract", we waive any right of recovery we may have against any person or organization because of payments we make for injury or damage arising out of your ongoing operations or "your work" done under that written "insured contract" for that person or organization and included in the "products-completed operations hazard".

Item 10. and Item 11. are added:

10. **Cancellation Condition**
   If we cancel this policy for any reason other than nonpayment of premium we will mail or deliver written notice of cancellation to the first Named Insured at least 60 days prior to the effective date of cancellation.

11. **Liberalization**
   If we adopt a change in our forms or rules which would broaden your coverage without an extra charge, the broader coverage will apply to this policy. This extension is effective upon the approval of such broader coverage in your state.

**SECTION V – DEFINITIONS**

The following definitions are added or changed:

9. **"Insured contract"**
   a. is changed to:
      a. A contract for a lease of premises. However, that portion of the contract for a lease of premises that indemnifies any person or organization for damage by fire, explosion or sprinkler leakage to premises while rented to you, or temporarily occupied by you with permission of the owner, or managed by you under a written agreement with the owner is not an "insured contract".

23. and 24. are added:

23. "Location" means premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway, waterway or right-of-way of a railroad.

24. "Product recall notification expenses" means the reasonable additional expenses (including, but not limited to, cost of correspondence, newspaper and magazine advertising, radio or television announcements and transportation cost), necessarily incurred in arranging for the return of products, but excluding costs of the replacement products and the cash value of the damaged products.

The following Provisions are also added to this Coverage Part:

A. **ADDITIONAL INSUREDs – BY CONTRACT, AGREEMENT OR PERMIT**

1. Paragraph 2. under **SECTION II – WHO IS AN INSURED** is amended to include as an insured any person or organization when you and such person or organization have agreed in writing in a contract, agreement or permit that such person or organization be added as an additional insured on your policy to provide insurance such as is afforded under this Coverage Part. Such person or organization is not entitled to any notices that we are required to send to the Named Insured and is an additional insured only with respect to liability arising out of:
   a. Your ongoing operations performed for that person or organization; or
   b. Premises or facilities owned or used by you.

With respect to provision 1.a. above, a person's or organization's status as an insured under this endorsement ends when your operations for that person or organization are completed.

With respect to provision 1.b. above, a person's or organization's status as an insured under this endorsement ends when their contract or agreement with you for such premises or facilities ends.
2. This endorsement provision A. does not apply:
   a. Unless the written contract or agreement has been executed, or permit has been issued, prior to the “bodily injury”, “property damage” or “personal and advertising injury”;
   b. To “bodily injury” or “property damage” occurring after:
      (1) All work, including materials, parts or equipment furnished in connection with such work, in the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the site of the covered operations has been completed; or
      (2) That portion of “your work” out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project;
   c. To the rendering of or failure to render any professional services including, but not limited to, any professional architectural, engineering or surveying services such as:
      (1) The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; and
      (2) Supervisory, inspection, architectural or engineering activities;
   d. To “bodily injury”, “property damage” or “personal and advertising injury” arising out of any act, error or omission that results from the additional insured’s sole negligence or wrongdoing;
   e. To any person or organization specifically designated an additional insured for ongoing operations by a separate ADDITIONAL INSURED – OWNERS, LESSEES OR CONTRACTORS endorsement issued by us and made a part of this policy

B. PRIMARY NON-CONTRIBUTORY ADDITIONAL INSURED EXTENSION

Condition 4. Other Insurance of SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS is amended as follows:

a. The following is added to paragraph a. Primary Insurance:

   If an additional insured’s policy has an Other Insurance provision making its policy excess, and you have agreed in a written “construction contract” to provide the additional insured coverage on a primary and noncontributory basis, this policy shall be primary and we will not seek contribution from the additional insured’s policy for damages we cover.

   For the purposes of this endorsement, “construction contract” means a written contract or written agreement other than a premises lease, facilities rental contract or agreement, an equipment rental or lease agreement, or a permit issued by a state, county, municipality or other governmental authority.

b. The following is added to paragraph b. Excess Insurance:

   (3) Except as specified in paragraph a., above, any other insurance in which a party who is an additional insured hereunder is designated as a Named Insured.

Regardless of the terms of any written agreement between you and an additional insured, this insurance is excess over any other insurance whether primary, excess, contingent or on any other basis for which the additional insured has been added as an additional insured.

(1) If there is similar insurance or a self-insured retention plan available to that organization; or

(2) To "bodily injury" or "property damage" that occurred before you acquired or formed the organization.

f. Any volunteer or employee of yours while using a covered "auto" you do not own, hire or borrow in your business or your personal affairs. Insurance provided by this endorsement is excess over any other insurance available to any volunteer or employee.

g. Any person, organization, trustee, estate or governmental entity with respect to the operation, maintenance or use of a covered "auto" by an insured, if:

SECTION III – PHYSICAL DAMAGE COVERAGE

If you are liable for the "accident", we will also pay up to $500 per "accident" for the actual loss of use to the owner of the covered "auto".

c. Our obligation to pay for, repair, return or replace damaged or stolen property will be reduced by an amount that is equal to the amount of the largest deductible shown for any owned "auto" for that coverage. However, any Comprehensive Coverage deductible shown in the Declarations does not apply to "loss" caused by fire or lightning.

5. Rental Reimbursement Coverage

We will pay up to $75 per day for up to 30 days, for rental reimbursement expenses incurred by you for the rental of an "auto" because of "loss" to a covered "auto". 7. Lease Gap Coverage

If a long-term leased "auto" is a covered "auto" and the lessor is named as an Additional Insured – Lessor, in the event of a total loss, we will pay your additional legal obligation to the lessor for any difference between the actual cash value of the "auto" at the time of the theft and the "outstanding balance" of the lease.

"Outstanding balance" means the amount you owe on the lease at the time of loss less any amounts representing taxes; overdue payments; penalties, interest or charges resulting from overdue payments; additional mileage charges; excess wear and tear charges; and lease termination fees.

TOPIC: STATEWIDE ASSOCIATION OF COMMUNITY COLLEGES

SUBMITTED BY: Deedee Orta, Administrative Services

APPROVED BY: Peter Allan

Description/Background:

The District desires to renew the contract with Statewide Association of Community Colleges (SWACC) to provide liability and property insurance coverage for Victor Valley College for fiscal year 2014-15. SWACC is a joint powers authority that was created in 1985 in response to skyrocketing premiums and decreasing liability insurance for California Community Colleges.

SWACC's property and liability program was designed as an excess coverage program exclusively for the coverage needs of JPAs, county offices and individual districts. By forming a "Super Pool", SWACC self-insures member districts from the member's individually selected retained limit (MRL) to a "pooled" JPA self-fund retention, the level of which depends on insurance market conditions. Currently, the self-funded retention's for liability pooled are $1,000,000 per occurrence, and property are $250,000 per occurrence.

The rates have declined for the 2014-15 fiscal year.

TOPIC: APPROVAL OF FIVE-YEAR FACILITIES CONSTRUCTION PLAN

SUBMITTED BY: Steve Garcia, Facilities Construction

RECOMMENDED BY: G.H. Javaheripour

APPROVED BY: Peter Allan

Description/Background:

Every year the District must submit a Five-Year Facilities Construction Plan to the California Community College Chancellor’s Office. The proposed VVC Five-Year Plan reflects fiscal years 2016 – 2020. Due to the lack of State funding this plan includes many locally funded projects that will help the District meet facility needs for the immediate future. This plan also includes funding requests for future projects to be funded by the State. The District will continue to apply for State funding for its capital projects should State dollars become available.

A copy of the Five-Year Facilities Construction Plan is available for review in the Superintendent/President’s office.

Need:

This is an integral part of the planning process to provide needed facilities for the District and to assist securing state funding for needed facilities.

Fiscal Impact: No fiscal impact.

Recommended Action:

It is recommended that the Board of Trustees approve the submittal of the Five-Year Facilities Construction Plan as presented to the Chancellor’s Office.

Explain why this project is needed:

This project modernizes 8,308 ASF / 10,002 GSF comprising the existing Music Building #20 built in 1968 and never updated over the 43 years since. The project includes bringing the building into compliance with the ADA code, updating the sound system, improving room acoustics, updating electronics, and additional practice rooms.

For the Fall 2010 semester the Music Building laboratories were utilized at 110% of capacity (Capacity/Load Ratio of 91.4%).

**Explain why this project is needed:**

This project constructs a new permanent 14,880 ASF / 21,200 GSF science and health/nursing laboratory building on the main campus at Victor Valley College. It will be in the form of a one story building located adjacent the existing one story Science Building. The original design for the Science Building was based upon enlarging the lab capacity as enrollments grew by adding an additional row of Life and Physical Science Laboratories on the west side of the building. The existing science prep spaces (lab service) are unchanged, as their location and present size anticipated this expansion. Across a hallway from the new science labs are new laboratories and offices for the Health/Nursing programs, including Skills labs and SIM (simulation) labs for training in various health specialties: OB/Gyn, Pediatrics, ICU, Medical/Surgical Patient Room, and Psychology. Each SIM Lab will have a control room and a group Debriefing Room using one way glass and video cameras for observation and critique.

The new building will be free-standing and will be situated to provide convenient access from the new science labs to the existing science prep spaces. Concurrently, the new nursing/allied health labs will be close to the existing Nursing Building which will continue to accommodate part of the nursing program. It will be remodeled as a future secondary effects project with with some vacated labs converted to lecture space for these programs.

For the 2011 Fall Semester, the existing Science Building laboratories were used at 121.9 percent of capacity. The Allied Health/Nursing Building laboratories were used at 314.4 percent of capacity. In addition, the Health programs also used the Technology Center Lab room 143 and Lower Portable room 7 (at 176.7 percent of capacity). These use data demonstrate a clear need for additional science and health laboratory classrooms. Concurrently, classrooms on campus were used at 121.4%, representing an immediate shortage of 11,000 ASF, approximately 14 classrooms.

It will incorporate new labs in the health and science fields including:
- Nursing
- Allied Health
- Health Simulation Labs
- Biology
- Chemistry
- Earth Science

Explain why this project is needed:

This project constructs a new Vocational Lab Building on the lower campus of Victor Valley College comprising 3,999 ASF of Auto/Diesel Mechanics Labs, 3,800 ASF of Welding labs, and 2,600 ASF of lecture classrooms, supported by public toilets and utility space. The project will also result in relocating the Digital Animation Laboratory currently located in a portable building that occupies the location of this building. It will temporarily be relocated to another portable building nearby. The Auto and Welding facilities are among the oldest at the VVC Campus and in dire need of augmentation and upgrading. For the 2011 Fall Semester, the Welding laboratory was used at 150.6 percent of capacity, the Auto laboratories were used at 546.3 percent of capacity. There are currently no lecture classrooms serving the vocational labs on the lower campus.

Explain why this project is needed:

This project reconstructs 11,614 ASF / 18,544 GSF of existing space and constructs a new 4,442 ASF / 7,051 GSF addition in order to accommodate all the college student services functions under one roof. Currently, the several student services are spread over three buildings on campus creating a confusing flow of services for students and inefficient utilization of space. This project will mainly remodel and expand Buildings 50 and 52 to bring the services together to create a logical matriculation service flow for students. This flow of services will include:

- Admissions & Records
- Assessment Center
- Orientation
- Financial Aid & Scholarships
- Veterans Services
- Counseling & Program Advisement
- EOPS/CARE
- DSP&S
- CalWORKS
- Registration
- Bursar

Explain why this project is needed:

This project constructs a new laboratory building for the visual arts and engineering programs, many sustainable, on the upper main level of the Victor Valley College campus. It partially replaces labs on the lower campus in temporary buildings while confronting the chronic shortage of laboratory space within the arts and engineering and computer-based programs. The building would be located adjacent the existing Art Building #22. It would accomplish a master plan goal of "professionalizing" certain programs on the lower campus currently in an industrial setting. The vacated temporary buildings will be removed. The vacated permanent space will be repurposed for badly needed growth in the Auto, Welding, and Agriculture-Natural Resources programs. It would also replace the outmoded visual art and chemical-based photography facility in Building #22 with state-of-the-art labs. Building #22 would be remodeled into classrooms and faculty offices as a secondary effect. The new building will be provided its own chilled water plant for cooling. the project will add about 18,000 WSCH in lecture and lab capacity.

Explain why this project is needed:

Building #55 was constructed as a bridge over the campus lake and is the centerpiece of the college. The cantilevered steel floor framing was under-designed and is sagging along the window walls facing the lake. There is an additional weakness in that the design does not meet current DSA requirements for axial strength over the long dimension of the building. This is outlined in a report prepared by a structural Engineer. The project will structurally retrofit the building in order to correct the hazard and upgrade to current code. Current office usage will be maintained.

**Explain why this project is needed:**

This project proposes to reconstruct the Liberal Arts Building (#30). This building currently houses the Liberal Arts, Earth Science and Mathematics Programs. The proposed project would reconstruct 16,624 ASF (22,022 GSF) to accommodate more efficient classroom, laboratory and office space. The original building was built in 1965 was the college's main science building. As such many rooms are oversized (typically 1,200 ASF or more) for the current usage. It also has never been comprehensively remodeled. The building has limited infrastructure, technology and space configuration and is no longer adequate to carry out program functions to serve the needs of the students. In addition, the mechanical/plumbing and electrical systems of the building are in poor condition and needs to be upgraded.

The reconstruction will consist of modernizing 8,668 ASF of Lecture, 2,193 ASF of Laboratory, 4,092 ASF of Office, 970 ASF of AV/TV and 701 ASF of additional instructional support spaces. New technology will be integrated throughout the building to meet program instructional requirements.

**Explain why this project is needed:**

This project constructs a new building to house the Music programs. Its primary purpose is to provide new permanent well-conditioned space for the growth for the existing Music Programs and to replace the existing labs with safe and appropriate spaces for instruction. This project will result in a secondary effects project, which will vacate the existing building MU, freeing it up for other uses such as classrooms and lecture halls. The existing Music building was constructed in 1968. The location does prevent growth and the hexagonal shape is ill suited for music instruction. Current mechanical, lighting, room sizes/shapes and accessibility have also constrained program growth and affect the instruction and the well-being of students and teachers. The lack of natural ventilation and the inadequate mechanical system in painting labs prevents the use of oil paints, cleaners, solvents necessary for that popular art medium. A once thriving ceramics program can no longer operate in a facility landlocked with no accessible outdoor work spaces, kiln areas, or adequate mechanical ventilation system for dust and vapor control. Sculpture classes are limited to small low-ceilinged spaces, with inadequate ventilation, storage and access to a loading area for large pieces. Over the course of time the lack of adequate facilities has constrained the development of these programs and is reflected in the large number of theory-based classes with only limited lab instruction. As the community of the High Desert looks to become a larger, thriving and self-sustained society, Art programs will continue to have a high demand and play a key role in the social development and identity of the region.

The new building would be located adjacent the existing performing arts building, reinforcing it as the artistic hub of the campus. This arts hub will better serve the community and a College soon-to-be 15,000 students and well along on its way to a build-out of 20,000. The new building will provide adequate ventilation, lighting, equipment accessibility, common student and patron gathering spaces, a new community gallery and will be a key component in reinforcing the College’s vision of a synergy among all of the art related programs and is an important element of the overall College Educational and Facilities Master Plan. In conjunction with this new facility we would be adding on a phase II of the existing central plant. Actually constructing a new Central plant South as opposed to the existing Central plant North. The plant would serve this new Visual Performing Arts building and 4 other adjacent buildings with Heating and cooling all controlled via the campus web based energy management system.
District Priority No.: 11 Performing Arts Lab Building

**Explain why this project is needed:**

This project includes outdoor physical education facilities to replace an unsafe track and field facility. The current track is located along Fish Hatchery Road, a narrow, heavily used street heavily used street that already needs to be widened -- unfortunately in the westerly direction of the PE fields due to existing buildings and other facilities on the opposite side of the street. This creates an unsafe environment for physical education classes. The replacement facility would include an all-weather playing field, a nine lane all weather track with areas for warm-up, shot put, discuss, high jump, steeplechase, and the pole vault. The project would include lighting and bleachers and an electronic scoreboard designed for multiple physical education activities. A field house to replace the one lost in the 8.0 Landers Quake would provide lockers/shower rooms, classrooms, meeting space, storage, a training room, weight facility and toilets.

The present track does not meet NCAA requirements – the curves are too sharp. The demolition of the old gym removed locker rooms, meeting rooms, training room and faculty offices.

**Explain why this project is needed:**

The Workforce Development Center is a Workforce Training Complex with major components that address a region emerging into a service economy. Victor Valley College’s proposed Westside Center - Phase I would include, a Business Academy, an expanded Hospitality program with culinary components, and a Logistical Transportation program to support the SCLA with elements that could include a variety of aviation related programs and logistics technology programs. Each component would feature state of the art training, facilities, and equipment as well as short-term training opportunities and programs that provide degrees and certificates.

Phase I of the Westside Center would include 5000 ASF of Lecture, 12,000 ASF of Laboratory, 5,000 ASF of Office, and 5,500 ASF of instructional and academic support spaces.

This project is 100% locally funded (Bond Measure JJ) and is supported by the Colleges Educational Master Plan Update (2008) and the Facilities Master Plan.

**Explain why this project is needed:**

This project proposes the construction of Phase II at the Workforce Development Center location. Phase II consists of a total of 19,000 ASF (26,000 GSF) and will include 3,000 ASF of Lecture, 10,000 ASF of Laboratory, 2000 ASF of Office, 1000 ASF of Library, 500 ASF of AV/TV and 2,500 ASF of additional instructional support spaces. The new building will further implement the Westside Center vision of a Workforce Training Complex to houses programs that address a region emerging into a service economy. Victor Valley College's proposed Westside Center - Phase II will include lecture and laboratory spaces to accommodate the growth of Business and Hospitality programs. This facility will feature state of the art facilities and equipment to meet the instructional delivery demands of the programs. The proposed building will also support general education to provide full academic opportunities to the students at the Westside Workforce Development Center.

The enrollment at Victor Valley College is expected to increase from 165,872 WSCH in 2009 to 211,990 WSCH in 2015 (27.8% in 4 years, average 6.6% per year). This Westside Center Phase II project will provide the necessary space for growing the Business and Hospitality programs.

**Explain why this project is needed:**

This project will provide campus-wide improvements to traffic and parking lots.

**Parking:**
This project will add additional parking space to the existing parking at the college. Demolition and reconstruction of parking areas that have been severely damaged over time is included as part of this ongoing project. It is anticipated that these improvements will allow the College to address the parking needs of the campus through 2025. Parking lot lighting is being addressed as part of a separate energy efficiency project. This is a locally-funded project.

**Traffic:**
The ability of the existing road system to safely handle the increasing traffic at Victor Valley College is failing. This project will address and correct the following conditions. The College has closed off exiting traffic at one of four ingress-egress points at the request of the City of Victorville due to a high incidence of traffic accidents. The second entrance is an alleyway with a right-turn-only exit onto a divided freeway. The main entry/exit point is lighted (having the ability to stack only two vehicles in each of three lanes) at Bear Valley Road, a busy six-lane major thoroughfare. The remaining entrance is an unlighted exit, also onto Bear Valley Road. The city buses will not exit from this unlighted location due to safety hazards encountered when merging into heavy 45 mph through-traffic. This project will provide a new alternate exiting system at the lighted intersection with greater stacking capacity. It will be constructed to public works standards for roadways and create a four-lane loop around the campus (currently only 3/5 of the road is four-lane). The remaining 2/5 of the road does not meet minimum standards. This substandard portion is too narrow to establish a legal center division line.

Commencing on the Start Date and subject to the terms and conditions of this Agreement and the payment of the License Fees and Maintenance Fees., if Customer elected to receive Ferrilli’s Solution Assurance program, Ferrilli shall provide Customer with the Maintenance, as described in this Section, during active Maintenance Service Periods in which License Fees and Solution Assurance Maintenance Fees have been paid by Customer to Ferrilli. Ferrilli does not warrant that the Software will operate error-free. Customer shall reimburse Ferrilli for reasonable travel, living and other out-of-pocket expenses, with no additional markup, incurred by Ferrilli personnel providing the Maintenance.

1.2 Maintenance Fees. In order to continue annual Solution Assurance Maintenance for additional periods of twelve (12) months beyond the initial 12-month Maintenance Service Period, Customer will receive an invoice approximately sixty (60) to ninety (90) days before the expiration of the then-current Maintenance Service Period and shall pay to Ferrilli, prior to the effective start date of the next Maintenance Service Period, Renewal Maintenance Fees as set forth in the invoice. If Customer fails to pay the initial Solution Assurance Maintenance Fees or Renewal Maintenance Fees to Ferrilli prior to the effective start date of the next Maintenance Service Period, Ferrilli shall cease to provide Customer with Solution Assurance Maintenance effective immediately. Customer may, however, purchase Maintenance on a time and material basis at Ferrilli’s then current rates.

1.3 Description of Maintenance. Subject to the terms and conditions of this Agreement and the payment of the applicable Maintenance Fees, Ferrilli shall provide Customer with telephone assistance with respect to use of the Software at telephone numbers designated by Ferrilli from time to time. Telephone support shall be limited to two (2) (a primary and a secondary) named Customer trained technical representatives with sufficient expertise and knowledge of the Software to assist Ferrilli in providing support. Customer may also obtain Maintenance via e-mail at support@figsolutions.com (provided, however, that no e-mail shall be deemed “received” by Ferrilli until Ferrilli has notified Customer that such e-mail has been received). Ferrilli will confirm receipt of such request within a commercially reasonable period of time.

1.4 Response Times. For any support requests by Customer submitted to Ferrilli in accordance with the provisions of this Agreement, Ferrilli shall use commercially reasonable efforts to respond to such problems in accordance with the following:

1.4.1 For any problem of “highest severity,” as soon as possible not to exceed four (4) Business Hours after Ferrilli’s receipt of the request for Maintenance. The term ”highest severity” in this paragraph refers to any problem that completely prevents the operation of the Software and for which there is no work-around.

1.4.2 For any problem of “medium severity,” within eight (8) Business Hours after Ferrilli’s receipt of request for Maintenance. The term ”medium severity” in this paragraph refers to any problem that substantially restricts the operation of the Software and for which there is no alternative solution or work-around.

1.4.3 For any problem of “low severity,” within twenty-four (24) Business Hours after Ferrilli’s receipt of request for Maintenance. In addition, Ferrilli will, in Ferrilli’s discretion, work to resolve such problem in the next general release of the Software. The term “low severity” in this paragraph refers to any problem that does not substantially restrict the operation of the Software or any other error for which there is an alternative solution or work-around.

1.5 Exclusions from Maintenance.
1.5.1 Ferrilli shall not be responsible for providing Maintenance if Customer (a) misuses, alters or damages the Software, (b) uses the Software in an operating environment other than the Designated Operating Environment, or (c) otherwise uses the Software in a manner inconsistent with the terms and conditions of this Agreement.

1.5.2 If Customer notifies Ferrilli of a problem and Ferrilli determines that the problem is due to Customer's incorrect or improper use, including improper configuration change, or an unauthorized modification of the Software or a failure of Customer to comply with the terms or conditions of this Agreement, Ferrilli shall have no obligation to take any action to correct the problem. Upon request by Customer, Ferrilli may agree to attempt to correct the problem, in which case Customer shall reimburse Ferrilli for any time spent and expenses incurred resolving such problem at Ferrilli's then-current rates.

1.5.3 Ferrilli's obligations under the Agreement shall apply solely to the current release of the Software and for six (6) months after any new release of the Software with respect to the immediately preceding release of the Software. Ferrilli's sole obligation with respect to the prior release of the Software shall be to ensure that the prior release of the Software continues to function in the manner in which it functioned on the date that Ferrilli made the then current release of the Software available on a commercial basis.

1.5.4 The Maintenance Includes only the installation, consulting, development, on-site services, or training services, set forth in Exhibit B.

1.5.5 Ferrilli shall have no responsibility for loss of or damage to Customer's data. Customer shall take all necessary steps to backup its data.

11. Entire Agreement
This agreement contains the entire agreement between the parties hereto, and supersedes any and all other agreements heretofore made.

FIRST READ – BOARD POLICY 2370 – INVOCATIONS AT BOARD MEETINGS

Jeffery Morris, Legal Counsel (Stutz Artiano Shinoff & Holtz)

Dennis Henderson, Board President

Peter W. Allan

Board Policy 2370 – Invocations at Board Meetings is a new proposed Board Policy for consideration of the Board of Trustees. Legislative bodies in the United States of America have historically maintained a tradition of solemnizing those proceedings by allowing for an opening prayer with the intent to impart a seriousness, gravity and thoughtfulness that befits important deliberative proceedings, while respecting individuals’ personal religious beliefs or lack thereof. The proposed Board Policy sets forth the procedure to follow for inviting Invocational Speakers to Board meetings.

The proposed Board Policy is modeled after the invocation policy of the City of Lancaster. The City of Lancaster’s invocation policy was challenged and upheld in the decision of Rubin v. City of Lancaster (2011) 802 F. Supp. 2d 1107. Further, the United States Supreme Court recently upheld that a prayer to open a Board meeting did not violate the Establishment Clause of the United States Constitution. Town of Greece v. Galloway (2014) 134 S. Ct. 1811.

Attached with this report is a proposed version of Board Policy 2370.

Need:

To allow for a process to have an invocation before Board of Trustee meetings.

Fiscal Impact: None

Recommended Action: Review and discuss the proposed Board Policy 2370 – Invocations at Board Meetings.

BOARD POLICIES

Board Of Trustees

Chapter 2

Invocations at Board Meetings

Legislative bodies in the United States of America have historically maintained a tradition of solemnizing those proceedings by allowing for an opening prayer with the intent to imbue them with a seriousness, gravity and thoughtfulness that befits important deliberative proceedings while at the same time, respecting individuals’ personal religious beliefs or lack thereof. Accordingly, the following provisions shall govern invocations at Board meetings.

1. In order to lend gravity and solemnness to the proceedings of the Board of Trustees (“Board”), it is the policy of the Victor Valley Community College District (“District”) to allow for an invocation or prayer (hereinafter “Invocation”) to be offered for the benefit of the Board and the community.

2. The Invocation shall be held at the beginning of the meeting immediately before or after the pledge of allegiance and shall not be listed or recognized as an agenda item for the meeting so that it will be clear the Invocation is not considered a part of the public business of the Board.

3. No member of the Board, District employee or any other person in attendance at the meeting shall be required to participate in the Invocation.

4. The Invocation shall be voluntarily delivered by a member of the clergy, or a religious or spiritual leader in the District’s geographical jurisdiction. To ensure that such persons (the “Invocational Speakers”) are selected from a wide pool of eligible individuals, on a rotating basis, the Invocational Speaker shall be selected according to the following procedure:

   a. The Clerk shall compile and maintain a database (the “Congregations List”) of religious and spiritual groups with an established presence in the District’s geographic jurisdiction.

   b. The Congregations List shall be compiled by referencing the listing for “churches,” “congregations,” or other religious assemblies in the annual Yellow Pages® phone book(s) published in the District’s geographical jurisdiction, research from the Internet, and consultation with the local chambers of commerce. All religious congregations with an established presence in the communities that comprise the District’s geographical jurisdiction are eligible to be included in the Congregations List, and any such congregation can confirm its inclusion by specific written request to the Clerk.

   c. The Congregations List shall also include the name and contact information of any chaplain who serves one or more of the fire departments or law enforcement agencies within the District’s geographical jurisdiction or any nearby military facilities.

   d. The Congregations List shall be updated, by reasonable efforts of the Clerk, in November of each calendar year.

   e. Within thirty (30) days of the effective date of this Policy, and on or about December 1 of each calendar year thereafter, the Clerk shall mail an invitation addressed to the
“religious leader” of each congregation listed on the Congregations List and the individual chaplains included on the Congregations List.

f. The invitation shall be dated at the top of the page, signed by the Clerk at the bottom of the page, and read as follows:

Dear Religious Leader,

It is the policy of the Victor Valley Community College District to invite members of the local spiritual community to voluntarily offer a prayer before the beginning of its meetings, for the benefit and blessing of the Board of Trustees. As the leader of a religious congregation with an established presence in one of the communities served by the District, or in your capacity as a chaplain for one of the local fire departments or law enforcement agencies served by the District, you are eligible to offer this important service at an upcoming meeting of the Board of Trustees.

If you are willing to assist the District in this regard, please send a written reply at your earliest convenience to the Clerk at the address included on this letterhead. Clergy are scheduled on a first-come, first-served or other random basis. The dates of the Trustees’ scheduled meetings for the upcoming year are attached to this letter.

If you have a preference among the dates, please state that request in your written reply.

This opportunity is voluntary and you are free to offer the invocation according to the dictates of your own conscience. To maintain a spirit of respect and ecumenism, the Board requests only that the prayer opportunity not be exploited as an effort to convert others to the particular faith of the invocational speaker, nor to disparage any faith or belief different than that of the invocational speaker.

On behalf of the Victor Valley Community College District, I thank you in advance for considering this invitation.

Sincerely,
Clerk of the Board of Trustees

g. As provided in paragraph 6 (below) and, as the invitation letter indicates, prospective Invocational Speakers shall be scheduled on a first-come, first-served or other random basis to deliver the Invocation.

h. If the selected Invocational Speaker does not appear at the scheduled meeting, or if no Invocational Speaker has volunteered for a particular meeting, the Mayor may ask for a volunteer from among the Board of Trustees or the audience to deliver the invocation. If none of those individuals is prepared to deliver an Invocation, the Clerk may read a brief non-sectarian Invocation.
Invocations at Board Meetings

5. No Invocational Speaker shall be compensated for his or her service.

6. The Board Clerk shall make every reasonable effort to ensure that a variety of eligible Invocational Speakers are scheduled for the Board meetings. In any event, no Invocational Speaker shall be scheduled to offer a prayer at consecutive meetings of the Board, or at more than three (3) Board meetings during any calendar year.

7. Neither the Board nor the Clerk shall engage in any prior inquiry, review of, or involvement in, the content of any Invocation to be offered by an Invocational Speaker.

8. Shortly before the opening gavel that officially begins the meeting and the agenda/business of the public, the Board Chair shall introduce the Invocational Speaker and the person selected to recite the Pledge of Allegiance, and invite only those who wish to do so to stand for those observances with the Board.

9. This Policy shall be intended for all District Board meetings and District Board subcommittee meetings.

10. This Policy is not intended, and shall not be implemented or construed in any way, to affiliate the Board with, nor express the District’s preference for, any faith or religious denomination. Rather, this Policy is intended to acknowledge and express the District’s respect for the diversity of religious denominations and faiths represented and practiced among the citizens within the geographical area served by the District.

Additions and Revisions to the Agenda

Special Guests: Administrative Presentation on Board Policies and Budget
GH Javaheri, Vice-President of Administrative Services, discussion on proposed board policies: BOT did not ask for analysis in developing the Board Policies; waiting for May revise, not much information about budget development; BOT discussed it at previous board meeting, said they are developing guidelines in response to accreditation recommendation 6; done without input from VP – Administrative Services. BP 6320 on investments, question if GIC is an investment fund?, yes, so 2515 is in violation of current board policy. FCMAT also says interest from GIC can be used for operating expenses for 5-years. Constructive feedback: statement about how the interest and principle from the GIC may be used. Idea to wean use of interest from GIC to $2 million until 2019, then $1 million until 2024 when fund expires. Request for VP to share with us his recommendation for policies. Need robust summer to meet mid-sized college goal; lower enrollment, not meeting FTES goals in fall and spring due to economy. Next year may have another $1 million problem related to mid-size college cap. Discussion on chartering of policies in BP areas 2 or 6? Principle of GIC is $27 million. Discussion on purpose of the GIC. BOT hasn’t said how they want to spend the GIC. ACCJC wants plan for how to spend the GIC. GH would support recommendations to policy. Send suggestions for BP revisions to ASET for second reading in May.

1. Action/Information Items
   1.1 Action: 3/06/2014 Academic Senate Minutes (M/S/U) (Butros, Heaberlin) Y

Committee (M/S/C) (Ramming, McCracken) (Nay votes: Gibbs, D., Menser, G., Tomlin, K.)

1.3 BP 2515 – Use and Distribution of the Guaranteed Income Contract Fund “GIC” – 1st Reading (M/S) (Butros, Gibbs, D.) Discussion on “income” vs “investment” in title. BP must have a purpose, doesn’t meet accreditation recommendation. Violates another board policy. Look at plan from recommendation 6 and suggestion for using interest. Support for inviting 1 or 2 BOT members to next meeting for discussion. Second reading in May.

1.4 BP 2520 – Percentage of Budget Committed to Salary and Benefits – 1st Reading (M/S) (Gibbs, J., Butros) Discussion on reps sending revisions to area faculty for review. Percentages on the BP changed by BOT to 87%, 85%, and 83%. Issues related to differences in annual expenditures, planning, program expansion. Second reading in May.

1.5 BP 2525 – Percentage of Budget Committed to Classroom Instructional Employee Salary and Benefits – 1st Reading (M/S) (Ellis, Gibbs, J.) College Council did first reading, but AFT and CSEA have referred it for legal counsel. Motion to table. (M/S/U) (Gibbs, D., Butros)

Call to Order: 3:00 p.m.  
Recorder: Victoria Churgin  

1) Approval of the Minutes  
a) April 23, 2014 – approved by consensus  

2) Accreditation Update  
Peter Allan reported that the commission will be meeting in June 2014 to review our status. We are  
expecting to receive the outcome from the Commission on July 2, 2014.  

3) First & Second Read, BP 2515 (BP 6320a) Use and Distribution of the Guaranteed Investment  
Contract Fund (GIC) ~ Tracy Davis (Attachment)  
Requesting College Council approves the revision on a first and second read. BP 2515 with revisions  
were presented and approved by the Academic Senate on May 1, 2014.  
GH Javaheripour reported that the Board of Trustees has asked for a fiscal review of the three new board  
policies. The District is in the process of contracting with a consultant firm that can provide a fiscal analysis.  
GH stated that it is the pleasure of the committee (College Council) to hold off on the discussion of the three  
board policies until the fiscal analysis is completed and the report has been submitted so that the findings can  
be incorporated into the discussion. The new board policies will not be presented to the Board of Trustees  
during the May meeting. A robust conversation took place amongst the group regarding the GIC, Bond  
Measure JJ, COP (Certificate of Participation) payoff, and Proposition 39.  
Action: Peter Allan requested that the item be brought back to the next meeting for further discussion  
and to include BP 2525.  

4) First & Second Read, BP 2520 (BP 6220) Percentage of the Budget Committed to Salary and Benefits  
~ Tracy Davis (Attachment)  
Requesting College Council approves the revision on a first and second read. BP 2520 with revisions  
were presented and approved by the Academic Senate on May 1, 2014.  
BP 2520 was discussed during agenda item #3.  
Action: Peter Allan requested that the item be brought back to the next meeting for further discussion;  
hopefully we will have the results of the fiscal analysis by the consultant group.  

5) Informational Item/Discussion, Education Planning Initiative Task Force ~ Tracy Davis (Attachment)  
The Education Planning Initiative is a statewide project of the CCCCO, which is seeking participate  
from CCCs as pilot colleges ~to provide critical support and feedback in the development of an  
education planning and/or degree audit system that will benefit all California Community Colleges  
and students; more information can be viewed at http://ccc.eduplan.org/.  
Tracy Davis reported that she met with Virginia Moran, Sergio Oklander, Mark Clair, and Jennifer Larriva, to  
discuss the educational planning initiative the EPI. The understanding of the initiative is data integrity; we as a  
college will be making a proposal to join this pilot college program. Virginia Moran had asked Tracy Davis to  
recruit a couple of faculty members for this pilot program; participation includes Claude Oliver as the incoming  
Faculty Senate President, and Kelley Beach from Counseling; we are still waiting to hear from Pamela James  
and are working on a few others to participate. This will be done during the summer and will require a lot of  
coordination with MIS. If more information is required contact Virginia Moran as she can answer any  
questions. Greta Moon stated that this is a good tool to help develop educational planning, student success and  
will interface with our degree audit system in Datatel; to be a part of a pilot program is exciting. Bill Greulich  
stated internally from what he has read this is to standardize the data collection. Tracy Davis reported as a pilot  
program this would be a 1 to 2 year commitment on our part.

Additions and Revisions to the Agenda

Special Guests: Administrative Presentation on Board Policies and Budget
GH Javaheripour, Vice-President of Administrative Services, discussion on proposed board policies: BOT did not ask for analysis in developing the Board Policies; waiting for May revise, not much information about budget development; BOT discussed it at previous board meeting, said they are developing guidelines in response to accreditation recommendation 6; done without input from VP – Administrative Services. BP 6320 on investments, question if GIC is an investment fund?, yes, so 2515 is in violation of current board policy. FCMAT also says interest from GIC can be used for operating expenses for 5-years. Constructive feedback: statement about how the interest and principle from the GIC may be used. Idea to wean use of interest from GIC to $2 million until 2019, then $1 million until 2024 when fund expires. Request for VP to share with us his recommendation for policies. Need robust summer to meet mid-sized college goal; lower enrollment, not meeting FTES goals in fall and spring due to economy. Next year may have another $1 million problem related to mid-size college cap. Discussion on chartering of policies in BP areas 2 or 6? Principle of GIC is $27 million. Discussion on purpose of the GIC. BOT hasn’t said how they want to spend the GIC. ACCJC wants plan for how to spend the GIC. GH would support recommendations to policy. Send suggestions for BP revisions to ASET for second reading in May.
