      This procedure was approved by consensus to send this forward to the Cabinet that an Interim Appointee should be allowed to apply to a vacant management position if they are eligible and qualify for the position.

3) Update on Accreditation Report
   Dr. Silverman reported the accreditation report for March is written and being reviewed today prior to it being submitted to the accreditation team. Upon completion, it will be forwarded to the College Council and posted onto the website.

   Dr. Silverman reported that we are making progress on our recommendations. We have established another committee to organize the SLO’s. We have a one year extension to report that we are 100% done with the SLO’s. It is critical to have the SLO’s complete to be removed off of their warning list.

   It was discussed to hire a Dean of Curriculum to coordinate the SLO’s and assessment and support the VP in those areas.

   Dr. Silverman sent recommendations back to the Senate to hire a Faculty Coordinator (this is an interim) – to keep track of SLO’s and to motivate the faculty to get them completed.

4) Synergy Report
   The Synergy Report is still an open document which is still being fine-tuned. An extension was given till May 2008 to elect the department chairs.

   Priorities are to focus on the line deans (deans that directly oversee the four divisions) and then the two support deans (hired after the line deans).
5) **Technology Audit ~ short update**

6) **5-Year Budget Plan**
   Dr. Silverman brought the group up to date of the effects from the governor’s cut and how it is affecting our 5-year plan. Discussion and cooperation on everyone’s part will be imperative.

8) **Campus Smoking Regulations**
