Guests: See attached List		
TOPIC	DISCUSSION	DECISION PERSON RESPONSIBLE
Welcome and Purpose	<p>Nick Parisi, Dean of Instruction, Career and Technical Education. Explained the Mission of College to partner with the community for education needs. There is a need to have a partnership between healthcare institutions and the college.</p> <p>Increased population in the high desert mandates we increase our healthcare education, and this is the goal of today's meeting. To get input from the community on what programs the college needs to consider for future programs in their curriculum.</p> <p>Nick Parisi, also spoke about new allied health building in the future.</p>	
Invocation	Ginger Ontiveros directed the invocation.	
Opening Comments	<p>Dr. Robert Silverman, President/Superintendent Victor Valley College</p> <p>Welcomed all present. He expressed how he was pleasantly surprised at the community involvement with the college. He has never seen a community as active as this community with the community college. He thanked those that filled out surveys sent out, which addressed what services the college needs to offer in the future.</p> <p>Nick Parisi announced there is a new sleep study program in Respiratory therapy.</p> <p>Nick also spoke about the building and how the building is a</p>	Create Opportunities for input from stake-holders

	<p>dream at this point, and will be discussed more specifically by Scott Jones. Nick explained where the new allied health building at the present site of our community college.</p>	
<p>New Building Presentation</p>	<p>Scott Jones, Paramedic Director and Allied Health Dept. Chair Presented an architectural power point presentation, on future site of allied health building, and what it would like. Scott also showed an aerial view of current campus and where the allied health building would be in comparison to the current campus. Scott also explained that we are looking at 3 D technology and virtual reality programs. Health and Safety programs would be together with a bridge uniting the two programs.</p>	
<p>Survey Reports</p>	<p>Dr. Virginia Moran, Executive Dean of Instructional Effectiveness Thanked those that responded to the survey. Vision: Distributed Victor Valley Community College uplifts the diverse communities we teach and serve by promoting educational excellence, enhancing local prosperity, and ensuring environmental leadership. It was handed out to those present a “Summary of the Future of Selected Health-Related Occupations in the Inland Empire. Dental hygiene and EMT paramedic made the hot list. Nursing, not surprising, was a great need, especially in the future.</p>	<p>Consolidate quality data on new programs needed to be offered in School of Health Sciences.</p>
<p>Group discussion (10 mins each question X 4)</p>	<p>Question 1 What are the occupations you will need to fill within the next 3 to 5 years and how many positions do you expect? Responses from community groups and hospitals present:</p> <ul style="list-style-type: none"> <li>➤ Emergency Medical Technicians not job ready. Needs are to train EMTs on how to drive an ambulance. This skill are taught in post graduate programs for EMT and Paramedics, and should be taught before a person graduates from the program.</li> <li>➤ Training on how to transport a patient on skis. Both EMTs and Paramedics would need these types of skills to make</li> </ul>	<p>Follow-Up With Executive Summary to community focused on stake-holders needs.</p>

the student job ready again before they graduate from the program.
