To earn a second Associate Degree, the General Education courses remain the same, but you must complete 18 units in the new major, paying attention to any specific requirements for that major.

To transfer to a university for a Bachelor’s Degree, choose courses for your Associate’s Degree that simultaneously satisfy your university’s lower division requirements. To transfer to the University of California (UC) or to the California State University (CSU), you will most likely want to complete the Intersegmental General Education Transfer Curriculum (IGETC) or, for CSU only, the General Education Requirements for Transfer Certification (CSUGE), as part of your Associate’s Degree. Visit the Transfer Center and [www.assist.org](http://www.assist.org) for more information about preparing for transfer. Also, ask about the “Associate Degree for Transfer.”
