Student Headcount (Fall)
Credit 1st Census

Enrollment decreases due to recovery from recession:
- 1980 = -635 (15%)
- 1990 = -431 (6%)
- 2001 = -453 (4%)

If estimated loss in 2012 is 15% of 2009, the result would be a decrease of 2,074 students which equates to a loss of 684 FTES.

Global Recession: Having a large impact on construction industry
National Recession: This recession did not have a large impact on construction industry
National Recession: Had a large impact on construction industry
