- Advisor Sewell:
 - Did have something showing up today which we would be passing around. Weren't going to be here until September 6th. 9/11 is very important to the community up here. We have taken over the state one and reminding the community about the reminder. A monument was designed by a VVC student. Now about 3,000 new flags and they would be laid down for 9/11. Has spoken with I.C.C. Senator and has asked to announce about clubs helping and where they could get a donation of \$150 or \$250. CNA will be helping with the 9/11. We will be prepping the layout in the grass and everybody from the community, ASB, students, etc. would be helping. 150 rows and a gold spine would be put down. About everybody has wrote down names from the people that has passed that ASB has wrote the names. More information would be sent out. Would have a singer. If anybody that would like to help tomorrow in lower campus. Very good teamwork in the office and having everyone jump in for the ID cards. Have a good communication with the students that are new and returning. It is not a burden on the trustees since they all know who everyone is since everybody on council has meet them at the retreat. Have about 4 possible trustees running for 2 trustee positions. We would be having club rush coming up and Hispanic heritage event coming up as well where Activities Senator would be communicating with UNIDOS since they would want to be part of the planning as well.

Glad to see that everyone was helping with the students that has questions.

17.0 Mentor Forum

- Mentor Isbell:
 - Hey y'all and it has been a very interesting week. And that it has been a big rush this week, would be having another big rush within the next few weeks. When doing ids and verify all the information with the names and id numbers, clarify the id number is correct. Everyone would have put in the name that is on the registration statement even if they have a preferred name. The office is not a club/hangout area, and it is not a party place. Would need the office be more professional and not

have it to loud since the students coming in would need to hear. Tables are not chairs and floors are not beds. If anyone would like to help they would have to ask Advisor Sewell, Angela, and himself. ASB office work would need to be done by ASB council. Would need to be a minimum of 5 hours a week. Please take your position seriously, everybody would need to use their own account for doing ids since everyone has their own account. Would like for everyone to send him the names that everyone has researched from writing the names on the cards for 9/11 and what everyone has found out about them.
