

## Student Computer Lab Use Procedures

Victor Valley College provides computer access to currently enrolled students to support the completion of class related assignments. By logging onto this computer, you agree to all of the policies and procedures adopted by the College or established by individual labs that govern responsible use and agree to follow the directives issued by authorized College personnel supervising such labs and systems. Due to the nature of electronic mail and the Internet, users acknowledge that VVC cannot protect them from invasions of privacy or material that may be deemed offensive. Users agree to use only their own designated computer accounts. Accounts are non-transferable. The use of VVC computer labs is a privilege. The College reserves the right to monitor computer usage. Violations can result in temporary or permanent loss of computer access privileges. Board policies and administrative procedures can be found at <http://www.vvc.edu/offices/president/>. (Rev. Draft 10.09)
