### Diversity at Victor Valley College

Our country has become more diverse then ever before. This workshop will focus on understanding cultures different than our own and improving our communication styles, personal awareness and sensitivity. The workshop will be held on May 26, 2010 from 9-12 in the Staff Lounge and facilitated by Mr. John Levell. Mr. Levell was the second African-American teacher hired in the Victor Elementary School District and the first African-American male administrator hired in that district. After serving over forty years with Victor Elementary School District, Mr. Levell now serves as a consultant in mediation, effective communication, team building , and interest-based problem solving. The workshop is limited to 25 and will be opened to the first twenty-five staff who respond. Please email your interest to Linda Cera at [ceral@vvc.edu](mailto:ceral@vvc.edu).
