

Approved Technology Master Plan (TMP) Vision

14 March 2012

Vision Statement

Advance the effective use of technology at Victor Valley College thereby becoming the preeminent leader in the high desert in all aspects of education.

Vision

Technology is mainstream to every aspect of life. No matter what field our students are preparing for, they will need to know and understand a variety of technologies to be successful. Victor Valley College attracts students from the high desert and beyond because we are a college that places students and student learning first. Our reputation is built upon the quality of our programs. We hold both ourselves and our students to high standards of achievement. Faculty, staff and administrators are committed to this aspect of student success. Victor Valley College will continue to provide the technical resources and learning environment to prepare our students for the future.

The committee's technology vision:

- Provide the campus with a plan for implementing current and future technologies.
- Provide campus staff with training that allows them to meet the needs of the campus.
- Provide our students with the technical resources required for them to succeed with their educational goals.
- Make a positive impact on our community.
- Provide universal accessibility to technological resources for our constituents.
